Description

- **Productivity boost**
Thanks to the increased performance of the Xeon processors and powerful HD graphics performance, the TS440 has the power and speed to handle your workload with ease – while keeping your data safe.
- **Peace of mind**
The TS440 offers extensive redundant, hot-swap components to put your mind at ease. You can rest easy knowing your TS440 can power your workloads and keep your data safe.
- **Resourceful manageability features**

The TS440 provides out-of-band, cost-effective, remote management of end-user environments – regardless of the managed server's status. Intuitive and secure, the web console works directly out of the box to give point-and-click management tools perfect for branch offices or remote deployments with limited IT resources.

- **Whisper-quiet, energy-efficient operation**

At 33dB, the acoustics of the TS440 are significantly quieter than previous generations, and impressively quiet for any server – that's as quiet as a typical library. Plus, it's ENERGY STAR-certified, so it's easy on the environment and easy on your power bills.

- **Superb value**

With its attractive price points and low operating costs, the TS440 is highly affordable for the features and functionality it offers.
